Detailed Action

Response to Amendment

1. Applicant's Remarks/Arguments filed on 5/2/2008 regarding claims 1-6, 12, 16-18, 22-27, 36-37, 41, 43-46, 57-58 have been fully considered. Claims 1-61 are currently pending.

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present application relates to providing a fault-tolerant method to update a fiber channel database, including the unique steps of:

“the first device detecting the loss of the commit master; and

the first device resending the first message to each of a specified one or more devices if the first message or a prior message from the commit master includes updates data, else aborting the update operation.”

The closest prior art, Jacobs et al. (US Publication 2006/0123066 A1), discloses a method for dynamically adding and removing entries to a plurality of global and local queues. However, Jacobs fails to anticipate or render obvious the above quoted limitations of the present application. This renders the claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
